OBJECTIVE: Seeking a challenging position, in social services, that will capitalize on strong academic achievement and successful involvement with other professional partnerships with social service agencies. My aim is to provide quality service and effectively enhance the overall mission of any organization I am associated with.

SUMMARY OF QUALIFICATIONS

Currently possess over 7 years of experience in leadership, office management, customer service, and providing social services- this with the ability to ensure productive outcomes, through the use of effective problem solving and decision-making skills. Presently and effectively employed in the mental health and therapeutic sector, which has enhanced my overall ability to- work directly with patients, management staff, and interdisciplinary treatment teams. Assist clients and their family members, along with service providers, in obtaining the appropriate help and access to services such as mental health support, medical assessments, and financial supportive services. I have the ability to analyze complex, interdependent, as well as intermingled situations involving professionals from various medical and administrative departments in order to assist patients and their family members. Supervisory experience with working with direct staff, coordination experience, and program implementation. Identifying critical issues and key factors contributing to situations, and solutions that will minimize risk or prevent future occurrences. Additional areas of expertise include:

HIPPA/Patient Confidentiality
Long Term Care Resources
Assessments / Evaluations
Case Management
Behavior Health Treatment

Safety/Risk Assessment
Community Interaction
Problem Solving Skills
Clinical Support/ CFT/ Individual
Therapeutic Treatment Modalities

Team Development /Building
Youth Counseling
Youth Advocacy
Client Support & Empathy
Coordination/ Management

KNOWLEDGE, SKILLS, AND ABILITIES
